CUSTOM-MADE BARRELS

BRAND NEW COGNAC/BRANDY BARRELS

Inheriting six generations of know-how, Tonnellerie Vicard provides you with custom-made Cognac or Brandy barrels.

GRAIN TYPES AND ORIGINS

Manufactured entirely in our premises, staves are carefully selected by our wood buyers and harvested from french oak trees and bordering forests. Vicard devotes an 8-hectare (20 acres) wood yard for maturation of staves and is committed to an average

30-month natural, air drying-period. We have implemented a selection of grain types on the French oak supplies and bordering forests. We also offer European and American oak barrels with mixed grains. This strategy allows us to adapt to any special request.

PRECISE AND EFFICIENT TRACEABILITY

The Vicard Group owns and operates two stave mills. Vertical traceability begins in the forest and follows each stage of production.

FRENCH OAK & BORDER FORESTS

PRESTIGE
(VERY FINE GRAIN < 1.5 MM)

DISTINCTION
(FINE GRAIN 1.5 < 2 MM)

CLASSIQUE
(MID-FINE GRAIN > 2 TO 3 MM)

TRADITION
